PW! stimulates the community on creative ways to nurture our children.

February 21, 2017

Dear Early Learning Supporter,

First Teacher and Prevention Works! have put together a directory for early learning within Clallam County. We have had a preschool directory in past years, but feel there needs to be a shift toward all types of learning for early childhood, birth through age 8. A while ago, we printed and distributed it, but the cost has become prohibitive to continue with that method. Therefore, we are updating what we have twice a year, in January and August, adding programs, and making it available on the First Teacher website, Prevention Works! website, and through Facebook.

We believe this directory has been an asset in the past to parents and caregivers when considering a learning environment for their child. In addition to the names and information about each program, we let all parents in Clallam County know that they can obtain this information from the website by putting in articles in First Teacher. That means that over 2,300 parents and professionals will receive information on how to obtain this material on the internet.

If you are interested in participating in the directory, we need to ensure the information we have on you is correct and up to date. The more timeless as we can make it, the better: a common response to cost may be, "FREE" or "Call for rates;" unless changes are not foreseeable within four years. And, when detailing teacher experience, "since 1985" is preferable over "for 29 years." Attached is a form with the information that is currently in our directory, and includes the fields we are requesting for fluidity. Please fill out and make any changes necessary, then send back to Parenting Matters/ First Teacher at nicole@firstteacher.org or mail to PO Box 3323, Sequim, Washington 98382 as soon as possible to be included in the next update. We look forward to hearing from you.

Sincerely,

Cynthia Martin, Ph.D., Executive Director
Nicole Brewer, Program Director
